

## LRF150 Release Film

### ■ Product description

LRF150 is economical, high elongation release film.

LRF150 exhibits excellent release characteristics and vertical strength resistance, commonly used in resin infusion process.

This release film is supplied in both perforated and non-peforated versions Standard perforations are P3 & P6 but other perforations might be possible under request, please ask our technical team.

### ■ PROPERTIES

|                         |                |
|-------------------------|----------------|
| Maximum Use Temperature | 150℃ ( 302 ℉ ) |
| Colour                  | Red            |
| Tensile Strength        | 15MPa          |
| Elongation              | 400%           |

### ■ AVAILABILITY&PACKAGING

|                 |                                |
|-----------------|--------------------------------|
| Standard Widths | 1.2m , 1.5m (3.9',4.9' )       |
| Standard Length | 500m, 1000m (547yard,1094yard) |

### ■ Notes

Store in cool, dry place, and avoid direct sunlight

No skin irritation problems and no other special requirement.
