

LRF205 Release Film

■ Product description

Colored transparent red or blue this release film can be used with , epoxy, phenolic, polyester and any other resins up to a temperature of 205°C (401) .

LRF205 is an economical high temperature release film suitable for slightly contoured shapes or flat laminate where a nice finish is required.

LRF205 exhibits excellent release characteristics and peels off easily from any kind of resin without leaving any pollution on parts.

This release film is supplied in both perforated and non-perforated versions. Standard perforations are P3 & P6 but other perforations might be possible under request, please ask our technical team.

■ PROPERTIES

Maximum Use Temperature	205°C (401 °F)
Recommended Temperature	185°C (365 °F)
Colour	Light Blue
Tensile Strength	20MPa
Elongation	300%

■ AVAILABILITY&PACKAGING

Standard Thickness	50µm (0.002")
Standard Widths	1.37m (4.5')
Standard Length	250m, 400m, 500m (274yard,437yard,547yard)

■ Notes

No skin irritation problems and no other special requirement
