

LRF315 PTFE Release Film

■ Product description

LRF315 is red milky colored high performance PTFE release film exhibiting excellent elongation and can be used for cures up to 315°C (599 °F) with any of epoxy, BMI resins.

Its high elongation avoids bridging issues on the most complex contoured shapes.

This release film is supplied in both perforated and non-peforated versions Standard perforations are P3 & P6 but other perforations might be possible under request, please ask our technical team.

■ PROPERTIES

Material	PTFE
Maximum Use Temperature	315°C (599 °F)
Colour	Red, White
Tensile Strength	29MPa
Elongation	500%

■ AVAILABILITY&PACKAGING

Standard Thickness	25 µm, 50 µm (0.001", 0.002")
Standard Size	0.8m*150m (2.6'*164yard)
	0.8m*100m (2.6'*109yard)

A range of perforation patterns also supplied.
Other size on request

■ Notes

Store in its original packaging

No skin irritation problems and no other special requirement.
