

## LG215 Sealant Tape

### ■ Product description

LG215 is medium temperature sealant tape used for vacuum bag onfection. It can be used in oven and autoclave up to 200°C ( 392 °F ) .

LG215 is the ideal sealant tape for standard cures up to 180°C ( 356 °F ) and 7 bars. Its controlled tack helps in getting high level of vacuum within a short time but it also permits to reposition bagging film during the vacuum bag confection.

Material compatible with most laminate ( including composites tools ) and Im materials.

For optimum results, tape must be allowed to cool below 35°C ( 95 °F ) before stripping from mould surface.

### ■ PROPERTIES

Maximum Use Temperature	200°C ( 392°F )
Colour	Light blue
Solids	100%
Flammability	Non amnable

### ■ AVAILABILITY&PACKAGING

Standard Size	12.5mm*3.5mm*12m (0.04'*0.138"*13yard)
Standard Box Contents	24 Rolls
Also Available In Cord	20 Boxes In One Pallet

### ■ Notes

Storage: Tape must be stored flat in original box at temperature between 5°C --25°C

Shelf life: 12months

LG215 is non toxic, non irritant, and non injurious to skin
